A new constant and fruitful dialogue between industry and academia is absolutely necessary and it involves the development of a common language founded on mutual knowledge.

To foster this dialogue, University of Trieste, as partner of Transform4Europe project, organises an Open Dual Lecture to reach two goals: make it clear that the challenge is the same from both the academic and the industrial/business perspectives, and share the mutual knowledge about the most important topics of the future.

Two speakers, one academic and an entrepreneur are invited to dialogue about the new challenges of energy having in mind the three focus areas of the Transform4Europe project:

- digital transformation and smart regions;
- environmental transformation and sustainability;
- societal transformation, community building and inclusion.

**Chairperson:**

**Alessandro Massi Pavan**

*Coordinator of the Center for Energy, Environment and Transport Giacomo Ciamician, University of Trieste (Italy)*

**Speakers:**

**From academia: Yaroslav Grosu**

*University of Silesia in Katowice (Poland) - Professor of Institute of Chemistry*

**From industry: Lucio Sabbadini**

*Fincantieri S.p.A. - Corporate Innovation Department - Head of Technology Cluster Coordination (Italy)*

Q&A session will follow.
