Vengono aperte le altre due buste contenenti, rispettivamente, il tema n.1 ed il tema n.2 aventi i seguenti titoli:

1. *"I modelli di servizio sociale sono strumenti per rendere l'operatività più scientificamente fondata. Illustri il candidato, in forma sintetica, un modello teorico-operativo a sua scelta, mettendone in evidenza i possibili campi di applicazione."*
2. *"I principi del servizio sociale sono continuamente messi a confronto con i cambiamenti dei contesti istituzionali e sociali, che ne consentono o meno una piena attuazione. Illustri il candidato, in forma sintetica, quali principi, in base alla propria esperienza, trovano oggi maggiori ostacoli nell'operatività del servizio sociale."*

La Commissione invita quindi un candidato ad estrarre il tema da svolgere.

- 1) Il candidato Veronica Vaccaro estrae la busta contenente il tema n. 3, avente il seguente contenuto: "Un uomo di 43 anni si rivolge al Servizio sociale del Comune chiedendo di essere aiutato a trovare lavoro. Dal colloquio emerge che ha sempre lavorato come operaio, con esperienza in diverse mansioni. Due anni prima si era licenziato da un impiego a tempo indeterminato, esasperato dalle difficoltà nei rapporti con i colleghi di lavoro. Dopo la scadenza dell'ultimo contratto di lavoro a tempo determinato, ha beneficiato per 8 mesi dell'indennità di disoccupazione ordinaria (Aspi) e successivamente ha dato fondo ai propri risparmi. E' sposato ed ha un bimbo ancora piccolo. Abitazione di proprietà. Nessun parente di riferimento da parte di entrambi i coniugi. Il candidato analizzi la domanda ed ipotizzi i possibili percorsi di supporto al richiedente."

Vengono aperte le altre due buste contenenti, rispettivamente, il tema n.2 ed il tema n. 3, aventi i seguenti contenuti:

- 1) Tema n. 1: "La sig. L.B. ha 86 anni, è vedova e vive sola. Ha due figli, entrambi coniugati, fuori casa. Da alcuni mesi la stranezza di alcuni comportamenti e una crescente perdita di autonomia nelle attività di base della vita quotidiana (ADL) hanno indotto i figli a chiedere una visita neurologica, in esito alla quale alla mamma è stata diagnosticata una demenza tipo Alzheimer ad evoluzione piuttosto veloce. I figli si presentano al servizio, ma emerge che sono in disaccordo tra loro: il primo vuole che la madre rimanga a casa, il secondo pensa già all'inserimento in una struttura. Il candidato analizzi la situazione e delinei il ruolo dell'assistente sociale."

- 2) Tema n. 2: "Al Servizio Sociale giunge una segnalazione anonima in cui si riferisce che la sig. <sup>1</sup> ~~1~~ <sup>2</sup> ~~2~~ <sup>3</sup> ~~3~~ <sup>4</sup> ~~4~~ <sup>5</sup> ~~5~~
