Savoia Excelsior Palace, Riva del Mandracchio 4, Trieste

STEP-UP is a ITALY-CROATIA INTERREG EU Project with the aim of promoting the multimodal mobility of passengers in the Programme area, facilitating access to offered services, to combine tourism and transport aspects in a global vision. The objective is the realization of a Travel Planning Platform accessible to citizens and tourists which allows to integrate all the services and modes of transport between the territories of Italy and Croatia.

The conference is part of the Training Sessions activity that involves experts in the field of tourism, multi-modality and ICT systems applied to passenger flows. The aim is to promote the knowledge of these topics and to create a network between different projects related to the Adriatic area between Italy and Croatia.
